Čūlavamsa- Wilhelm Geiger 1996-01-01 Culavamsa or 'The Little Chronicle', a thirteenth-century work composed by Bhikkhu Dhammakitti in Pali, is a supplement to a much earlier work named Mahavamsa. These are the main sources of the political and religious history of Sri Lanka, the history of King Parakkamabahu being the real kernel. The main subject of the Culavamsa, especially of the first part, Parakkamabahu was the son of the eldest of the three brothers Manabharana, Kittisirimegha and Sirivallabha who ruled over Dakkhinadesa and Rohana in opposition to Vikkamabahu. The present volume is a reprint of the English translation from the German rendering of the work by Wilhelm Geiger in two parts bound in one.

Culavamsa, Being the More Recent Part of the Mahavamsa- Wilhelm Geiger 1929

In Defense of Dharma- Tessa J. Bartholomeusz 2005-07-26 This is the first book to examine war and violence in Sri Lanka through the lens of cross-cultural studies on just-war tradition and theory. In a study that is textual, historical and anthropological, it is argued that the ongoing Sinhala-Tamil conflict is in actual practice often justified by a resort to religious stories that allow for war when Buddhism is in peril. Though Buddhism is commonly assumed to be a religion that never allows for war, this study suggests otherwise, thereby
bringing Buddhism into the ethical dialogue on religion and war. Without a realistic consideration of just-war thinking in contemporary Sri Lanka, it will remain impossible to understand the power of religion there to create both peace and war.

**Lives of Indian Images**—Richard H. Davis 2020-07-21 For many centuries, Hindus have taken it for granted that the religious images they place in temples and home shrines for purposes of worship are alive. Hindu priests bring them to life through a complex ritual "establishment" that invokes the god or goddess into material support. Priests and devotees then maintain the enlivened image as a divine person through ongoing liturgical activity: they must awaken it in the morning, bathe it, dress it, feed it, entertain it, praise it, and eventually put it to bed at night. In this linked series of case studies of Hindu religious objects, Richard Davis argues that in some sense these believers are correct: through ongoing interactions with humans, religious objects are brought to life. Davis draws largely on reader-response literary theory and anthropological approaches to the study of objects in society in order to trace the biographies of Indian religious images over many centuries. He shows that Hindu priests and worshipers are not the only ones to enliven images. Bringing with them differing religious assumptions, political agendas, and economic motivations, others may animate the very same objects as icons of sovereignty, as polytheistic "idols," as "devils," as potentially lucrative commodities, as objects of sculptural art, or as symbols for a whole range of new meanings never foreseen by the images' makers or original worshippers.

**Destruction and Conservation of Cultural Property**—R Layton 2003-09-02 In 1991 the mosque at Ayodhya in India was demolished by Hindu fundamentalists who claim that it stood on the birthplace of a legendary Hindu hero. During recent conflicts in former Yugoslavia, ethnic groups destroyed mosques and churches to eliminate evidence of long-term settlement by other communities. Over successive centuries, however, a single building in Cordoba functioned as a mosque, a church and a synagogue. The Roman Emperor Diocletian's Palace in Split is occupied today by shops and residential apartments. What circumstances have lead to the survival and reinterpretation of some monuments, but the destruction of others? This work asks whether the idea of world heritage is an essential mechanism for the protection of the world's cultural and natural heritage, or whether it subjugates a diversity of cultural traditions to specifically Western ideas. How far is it acceptable for one group of people to comment upon, or intercede in, the way in which another community treats the remains which it claims as its own? What are the responsibilities of multinational corporations and non-governmental organisations operating in the Developing World? Who actually owns the past: the landowner, indigenous people, the State or humankind?

The Cult of the Goddess Pattini-Gananath Obeyesekere 1987-01-01 Pattini-goddess, virgin, wife and mother; folk deity of Sinhala Buddhists and Jains; and assimilated goddess of the Hindu pantheon-has been worshiped in Sri Lanka and South India for fifteen hundred years or more, as she still is today. This long-awaited book is the culmination of Gananath Obeyesekere’s comprehensive study of the Pattini cult and its historical, sociological, and psychoanalytical role in the culture of South Asia. A well-known anthropologist and a native of Sri Lanka, Obeyesekere displays his impeccable scholarship and a stunning range of theoretical perspectives in this work, the most detailed analysis of a single religious complex in South Asian ethnography (and possibly in all of anthropology). Since 1955 Obeyesekere has observed and participated in modern performances of the rituals of worship, healing, and propitiation in the Pattini cult, particularly the postharvest ritual known as the gammaduva. He presents detailed texts of the gammaduva, placing them in their historical and mythic traditions. Using the texts, he formulates a cultural analysis of the Buddhist pantheon and a critique of empiricist notions of South Asian historiography. Obeyesekere shows that some seemingly historical figures of South India and Sri Lanka are mythic characters and that their historical significance can best be understood by an anthropological analysis of myth rather than through a reification of myth in history. The concurrent Hindu worship of Pattini with its myths and rituals is described in detail. Obeyesekere documents the Sanskritization of Pattini, the changing physical structures of the goddess’s shrines from the 1930s to the present, the assumption by Brahman priests of ritual functions formerly carried out by folk priest, and the sociocultural causes of these changes. He traces, too, the origins and diffusion of the cult throughout its entire history, as well as its survival today. Of psychological interest is the problematic status of Pattini as virgin, wife, and mother and her relationship with her god-husband Palanga and his courtesan Madevi. Obeyesekere discusses the psychodynamics of this relationship in detail and explains its role in Hindu-Buddhist socialization and family structure. Further, he uses this analysis to account for local variations in the performance and structure of the ritual. The ritual of the killing and resurrection of Pattini’s husband and her role as mater dolorosa will interest scholars of comparative religion.

Peaceful Intervention in Intra-State Conflicts-Chanaka Talpahewa 2016-03-03 Have we reached an end to the era of peaceful third party intervention in conflict management and resolution? In the 1990s, with the ending of the Cold War, the intervention of third parties as a non-violent means of negotiating settlements of intra-state conflicts gained prominence but the emphasis in the twenty-first century has been increasingly on military responses. Peaceful Intervention in Intra-State Conflicts: Norwegian Involvement in the Sri Lankan Peace Process is an in-depth, impartial discussion on the background, decision making processes and procedures and related actions in the Norwegian facilitated peace process in Sri Lanka that gradually shifted towards a military solution. It provides the reader with evidence based comprehensive analysis on the attempts of peaceful third party intervention in a complex ethno-separatist intra-state conflict.

Imagining a Place for Buddhism - Anne E. Monius 2001-12-06
While Tamil-speaking South India is celebrated for its preservation of Hindu tradition, other religious communities have played a significant role in shaping the region's religious history. Among these non-Hindu communities is that of the Buddhists, who are little-understood because of the scarcity of remnants of Tamil-speaking Buddhist culture. Here, focusing on the two Buddhist texts in Tamil that are complete (a sixth-century poetic narrative and an eleventh-century treatise on grammar and poetics), Monius sheds light on the role of literature and literary culture in the formation, articulation, and evolution of religious identity and community.

The sigiriya paw - Priydarshi Thakur Khayal 2020-12-01
The sigiriya paw' Based on 'Maharana', the great Buddhist chronicle of Sri Lanka, “is truly like one of the Puranas. But the style is so uniquely endearing that you don't realise when the Purana entered the present, transiting seamlessly through history. The anxious characters of ancient past, driven into a vicious circle of lust and excesses, rivalries and conspiracies, consumed by their fears and need for revenge; and the intimacies and heartbreaks of their relationships – all blended together into such a compelling narrative of abuse of power and human anguish that we can see the present day world reflected in it every step of the way.

The Sea and Civilization - Lincoln Paine 2015
A monumental, wholly accessible work of scholarship that retells human history through the story of mankind's relationship with the sea. An accomplishment of both great sweep and illuminating detail, The Sea and Civilization is a stunning work of history that reveals in breathtaking depth how people first came into contact with one another by ocean and river, and how goods, languages, religions, and entire cultures spread across and along the world's waterways. Lincoln Paine takes us back to the origins of long-distance migration by sea with our ancestors' first forays from Africa and Eurasia to Australia and the Americas. He demonstrates the critical role of maritime trade to the civilizations of ancient Egypt and Mesopotamia, and the Indus Valley. He reacquaints us with the great seafaring cultures of antiquity like those of the Phoenicians and Greeks, as well as those of India, Southeast and East Asia who parlayed their navigational skills, shipbuilding techniques, and commercial acumen to establish vibrant overseas colonies and trade routes in the centuries leading up to the age of European overseas expansion. His narrative traces subsequent developments in commercial and naval shipping through the post-Cold War era. Above all, Paine makes clear how the rise and fall of civilizations can be traced to the sea.

**Buddhist Learning and Textual Practice in Eighteenth-Century Lankan Monastic Culture**-Anne M. Blackburn 2020-07-21 Anne Blackburn explores the emergence of a predominant Buddhist monastic culture in eighteenth-century Sri Lanka, while asking larger questions about the place of monasticism and education in the creation of religious and national traditions. Her historical analysis of the Siyam Nikaya, a monastic order responsible for innovations in Buddhist learning, challenges the conventional view that a stable and monolithic Buddhism existed in South and Southeast Asia prior to the advent of British colonialism in the nineteenth century. The rise of the Siyam Nikaya and the social reorganization that accompanied it offer important evidence of dynamic local traditions. Blackburn supports this view with fresh readings of Buddhist texts and their links to social life beyond the monastery. Comparing eighteenth-century Sri Lankan Buddhist monastic education to medieval Christian and other contexts, the author examines such issues as bilingual commentarial practice, the relationship between clerical and "popular" religious cultures, the place of preaching in the constitution of "textual communities," and the importance of public displays of learning to social prestige. Blackburn draws upon indigenous historical narratives, which she reads as rhetorical texts important to monastic politics and to the naturalization of particular attitudes toward kingship and monasticism. Moreover, she questions both conventional views on "traditional" Theravadin Buddhism and the "Buddhist modernism" / "Protestant Buddhism" said to characterize nineteenth-century Sri Lanka. This book provides not only a pioneering critique of post-Orientalist scholarship on South Asia, but also a resolution to the historiographic impasse created by post-Orientalist readings of South Asian history.

**Sharing Jesus Effectively in the Buddhist World**-David S. Lim 2005 This is the third book in the "Sharing Jesus in the Buddhist World" series, written by evangelical mission "reflective practitioners" who are committed to developing more effective ways to win the Buddhist peoples to the Lord Jesus Christ. The opening chapter describes "The Changing Demographic Context of Global Buddhism"; the next six describe some of the best models of mission approaches for reaching Buddhists; and the last four depict some past and present "people movements" or "church planting movements."

**A History of Early Southeast Asia**-Kenneth R. Hall 2010-12-28 This comprehensive history provides a fresh interpretation of Southeast Asia from 100 to 1500, when major social and economic developments foundational to modern societies took place on the mainland (Burma, Thailand, Cambodia, and Vietnam) and the island world (Indonesia, Malaysia, and the Philippines). Incorporating the latest archeological evidence and international scholarship, Kenneth R. Hall enlarges upon prior histories of early Southeast Asia that did not venture beyond 1400, extending the study of the region to the Portuguese seizure of Melaka in 1511. Written for a wide audience of non-specialists, the book will be essential reading for all those interested in Asian and world history.

Between East and West - R. A. Donkin 2003
Up to & including the Age of Discoveries, the wealth of the East was thought in Europe to consist primarily of spices & aromatics. Cloves, nutmeg, mace, & sandalwood all were thought to come from a few small islands in easternmost Indonesia, which no European reached before 1500. Yet supplies of these luxury products were reaching China, India, western Asia, & the Mediterranean lands more than a thousand years earlier. This study of Moluccan spices opens with their natural history & nomenclature, & the discovery of the Islands by Europeans near the opposing (& controversial) limits of Spanish & Portuguese jurisdiction. Donkin traces the expanding interest & long-distance trade in cloves, nutmeg, & sandalwood, first to India & then to the adjacent Arabo-Persian world. The medieval West & China lay on the margins of diffusion, the former in touch with the Levant, the latter with the trading world of South East Asia.

Water and Society from Ancient Times to the Present - Federica Sulas 2018-10-03
As water availability, management and conservation become global challenges, there is now wide consensus that historical knowledge can provide crucial information to address present crises, offering unique opportunities to appreciate the solutions and mechanisms societies have developed over time to deal with water in all its forms, from rainfall to groundwater. This unique collection explores how ancient water systems relate to present ideas of resilience and sustainability and can inform future strategy. Through an investigation of historic water management systems, along with the responses to, and impact of, various water-driven catastrophes, contributors to this volume present tenable solutions for the long-term use of water resources in different parts of the world. The discussion is not limited to issues of the past, seeking instead to address the resonance and legacy of water histories in the present and future. Water and Society from Ancient Times to the Present speaks to an archaeological and non-archaeological scholarly audience and will be a useful primary reference text for researchers and graduate students from a variety of disciplinary backgrounds including archaeology, anthropology, history, ecology, geography, geology, architecture and development studies.

Banished potentates—Robert Aldrich 2017-12-27 Though the overthrow and exile of Napoleon in 1815 is a familiar episode in modern history, it is not well known that just a few months later, British colonisers toppled and banished the last king in Ceylon. Beginning with that case, this volume examines the deposition and exile of indigenous monarchs by the British and French – with examples in India, Burma, Malaysia, Vietnam, Madagascar, Tunisia and Morocco – from the early nineteenth century down to the eve of decolonisation. It argues that removal of native sovereigns, and sometimes abolition of dynasties, provided a powerful strategy used by colonisers, though European overlords were seldom capable of quelling resistance in the conquered countries, or of effacing the memory of local monarchies and the legacies they left behind.

Islanded—Sujit Sivasundaram 2013-08-05 How did the British come to conquer South Asia in the late eighteenth and early nineteenth centuries? Answers to this question usually start in northern India, neglecting the dramatic events that marked Britain’s contemporaneous subjugation of the island of Sri Lanka. In Islanded, Sujit Sivasundaram reconsiders the arrival of British rule in South Asia as a dynamic and unfinished process of territorialization and state building, revealing that the British colonial project was framed by the island’s traditions and maritime placement and built in part on the model they provided. Using palm-leaf manuscripts from Sri Lanka to read the official colonial archive, Sivasundaram tells the story of two sets of islanders in combat and collaboration. He explores how the British organized the process of “islanding”: they aimed to create a separable unit of colonial governance and trade in keeping with conceptions of ethnology, culture, and geography. But rather than serving as a radical rupture, he reveals, islanding recycled traditions the British learned from Kandy, a kingdom in the Sri Lankan highlands whose customs—from strategies of war to views of nature—fascinated the British. Picking up a range of unusual themes, from migration, orientalism, and ethnography to botany, medicine, and education, Islanded is an engaging retelling of the advent of British rule.

Sri Lanka—Jonathan Spencer 2002-09-11 In the past decade, Sri Lanka has been engulfed by political tragedy as successive governments have failed to settle the grievances of the Tamil minority in a way acceptable to the majority Sinhala population. The new Premadasa presidency faces huge economic and political problems with large sections of the island under the control of the Indian Peace-Keeping Force (IPKF) and militant separatist Tamil groups operating in the north and south. This book is not a conventional political history of Sri Lanka. Instead, it attempts to shed fresh light on the historical roots of the ethnic crisis
and uses a combination of historical and anthropological evidence to challenge the widely-held belief that the conflict in Sri Lanka is simply the continuation of centuries of animosity between the Sinhalese and the Tamils. The authors show how modern ethnic identities have been made and re-made since the colonial period with the war between Tamils and the Sinhala-dominant government accompanied by rhetorical wars over archeological sites and place-name etymologies, and the political use of the national past. The book is also one of the first attempts to focus on local perceptions of the crisis and draws on a broad range of sources, from village fieldwork to newspaper controversies. Its interest extends beyond contemporary politics to history, anthropology and development studies.

**The Buddha**-Trevor Ling 2013-12-16 A warm and stimulating book, this text describes the India into which the Buddha was born, recounts what is known of his life and the development of his teachings, and then follows the course of Buddhism through succeeding centuries in India and Sri Lanka. Far from being a recluse concerned only with an inner mystical experience, the Buddha always involved himself closely in the social and political world of his time. If he preached detachment from many of the things by which ordinary men are tied, he did so as a means of enriching life rather than escaping it. These examinations and more make this a book to reveal the social-revolutionary potential of Buddhism.
