Distinguishes between Pammachon (martial arts) and Pankration (combat sports)

The ancient friezes and decorative motifs of ancient Greece contain abundant scenes of combat, one-on-one and hand-to-hand reading for students and armchair historians alike.

Modern Hand to Hand Combat

Hakim Isler 2014-09-30 Learn the most effective way to neutralize an opponent using ancient samurai techniques applied to modern combat with this illustrated martial arts guide. Modern Hand to Hand Combat: Ancient Samurai Techniques on the Battlefield and in the Street recognizes the lawless nature of today's battlefield. Hakim Isler, a veteran of the Iraq War, knows from his own experiences that in urban combat settings, the players, the equipment, and the stakes are very different from those found in an MMA octagon, the boxing ring, or the martial arts dojo. Based primarily on samurai techniques over a millennium old, Isler’s system—Battlefield Proximity Combat—is an effective answer to the unique needs of the modern warfighter and military martial artist. This martial arts training book gives step-by-step self-defense instructions on how to effectively and realistically respond to life and death hand-to-hand combat situations through movements and principles that are as valid today as they were 1000 years ago. With almost three hundred illustrations and a detailed DVD, the philosophy and instructions in Modern Hand to Hand Combat can mean the difference between life and death on the battlefield or in a street fight.

Weapons and Fighting Techniques of the Medieval Warrior

Martin J. Dougherty 2016-07-15 Weapons and Fighting Techniques of the Medieval warrior offers an highly-illustrated fact-filled introduction to the weaponry and fighting methods of the Middle Ages. Divided into four chapters, the main types of Medieval warrior are covered separately: mounted knights, foot soldiers, missile troops and siege engineers and sappers. The popular image of the mounted knight dominating the battlefields of Medieval warfare was far more complicated. Although rarely celebrated in Medieval art or literature, the weapons, technology, and techniques of the ordinary foot soldiers, such as the longbow men and pike-armed landknights, had a revolutionary impact on the development of warfare in the middle ages. Disciplined groups of archers were able to defeat better-armored and numerically superior forces of noble knights at battles such as Crecy (1346) and Agincourt (1415), while the emergence of military professionalism, and the impact these changes had on the battlefield.

Fighting Techniques Of The Ancient World 3000 BC To 500 AD Equipment Combat Skills And Tactics

Simon Anglim 2003 Discusses the components of ancient armies, including the personnel and equipment, as well as the battle tactics and strategies, lines of communication between commanders and troops, and special techniques of siege and naval warfare.

An illustrated history of warfare in the ancient world includes detailed examinations of armies, equipment, and strategies before gunpowder, in a volume that offers insight into the successes of the Assyrian and Roman forces.

Fighting Techniques of the Ancient World, 3000 BC - 500 AD: Simon Anglim 2013 Fighting Techniques of the Ancient World describes the fighting techniques of soldiers in Europe and the Middle East in an age before gunpowder. From a detailed examination of the individual components of an ancient army and their equipment, to a fascinating exploration of ancient battle strategies, siege warfare, and naval battles, the unique tactics required to win battles with the technology available, and points out how little has changed in some respects in the art of war. By using specially commissioned color and black-and-white artwork to illustrate the battles, equipment and tactics of the era, Fighting Techniques of the Ancient World shows in detail the methods by which armies, including Assyrians and Roman forces, prevailed over their foes, and why other armies were far less successful. The book is an essential companion for any reader in warfare in the classical age.

Fighting Techniques Of The Early Modern World

Christger Jorgensen 2006-07-11 An illustrated survey of the fighting techniques and weaponry of the sixteenth through the eighteenth centuries, written by five military experts, offers insight into the methods that were utilized in battle and how the development of period equipment changed the face of warfare. 10,000 first printing.

Roman Battle Tactics 109BC-AD313 - Ross Cowan 2007-07-24 The book clearly explains and illustrates the mechanics of how Roman commanders - at every level - drew up and committed their different types of troops for open-field battles. It includes the alternative formations used to handle different tactical problems and different types of terrain; the possibilities of ordering and controlling different deployments once battle was joined; and how all this was based on the particular strengths of the Roman soldier. Covering the period of \"classic\" legionary warfare from the late Republic to the late Western Empire, Ross Cowan uses case studies of particular battles to provide a manual on how and why and the Roman army almost always won against enemies with basic equality in western types - giving practical reasons why the Roman Army was the Western World\'s outstanding military force for a millennium.

The Book of Five Rings [Classics Illustrated] - Miyamoto Musashi 2012-02-08 In \"A Book of Five Rings,\" Miyamoto Musashi takes the reader into a world filled with the brim with devotion, self-respect, discipline, honesty and purity of thought. Written originally for warriors and samurai in a completely different time and culture, Musashi\'s book provides a remarkable source of inspiration for self-development today. His teachings are concise and to the point. He uses phrases like \"you must understand this\" and \"you must practice diligently\" and explains only general, but unquestionable and fundamental, concepts of the Way of the Warrior. While some of his guidelines are not are directly applicable in our time and age, those about striving to achieve improvement on the inside as well as the outside could not be more on target. Taken literally this book is about how to become an efficient, albeit enlightened, killer. It\'s value comes from reading between the lines-ones which speak volumes.

Breaking The Mold: Tanks In The Cities [Illustrated Edition] - Kendall D. Gott 2014-08-15 Illustrated with 30 maps. Few lessons are as prevalent in military history as is the adage that tanks don\'t perform well in cities. The notion of deliberately committing tanks to urban combat is anathema to most. In Breaking the Mold: Tanks in the Cities, Mr. Gott debunks that notion with a timely series of five case studies from World War II to the present in war in Iraq. This is not a parochial or trumpant study. These cases demonstrate that tanks must do more than merely \"arrive\" on the battlefield to be successful in urban combat. From Aachen in 1944 to Fallujah in 2004, the absolute need for specialized training and the use of combined arms at the lowest tactical levels are two of the most crucial lessons to be learned from these studies. Without proper training, armor is outmatched in urban combat. The studies in this monograph are high-intensity battles in conflicts ranging from limited interventions to major combat operations. It would be wrong to use them to argue for the use of tanks in every urban situation. As the intensity of the operation decreases, the second-order effects of using tanks in cities can begin to outweigh their utility. The damage to infrastructure caused by the sheer weight and size is just one example of what can make tanks unsuitable for every mission. Even during peace operations, however, it is crucial to employ tanks and other armored vehicles quickly can be crucial. A study on the utility of tanks in peace operations is warranted, and planned - Timothy R. Reese, Colonel, Armor

He Walks with Dragons - Stanley S. Thornton 2013-04-30 \"He Walks with Dragons\" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the mountainous by the Great Ones. He finds out he is to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naive innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconis, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their magical powers. \"From time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While in the shadows, we have protected him, for we knew a crucible for the heroes of ancient man.\" And when the time comes, Draig will be ordering his life for the sake of the dragons? When and the dragons are gone, where will be is? He is no longer just a man.

The Martial Arts of Ancient Greece - Kostas Dervenis 2007-10-22 An in-depth guide to the modern practice of Greek martial arts and their beginnings in ancient Greece and Egypt. Examines the correlation between ancient depictions of one-on-one combat and how martial arts are practiced today. Explores the close relationship between Greek martial arts and spiritual practice. Distinguishes between Pammach (martial arts) and Pankration (combat sports) The ancient freezes and decorative motifs of ancient Greece contain abundant scenes of combat, one-on-one and hand-to-hand. In The Martial Arts of Ancient Greece, the authors offer close inspection of these depictions to reveal that they exactly correlate to the grappling and combat arts as they are practiced today. They also show that these artifacts document the historical development of both the weaponry of the warrior classes and the martial responses those weapons required when fighting hand-to-hand. The depiction of each ancient technique is accompanied by sequenced step-by-step photos of modern practitioners performing the various stances of one-on-one combat. In addition, the authors explain how the development of Hellenic combat arts was tied at its heart to a spiritual practice. The centeredness, clear mind, and consequent courage that develops from a spiritual practice also outdoes its wicked predecessor! Feral Fighting is the advanced companion book that builds on the brutal fighting techniques of the original Widow Maker program. N...
