An Introduction to Medieval Jewish Philosophy

Daniel Rynhold 2009 Focusing on the central philosophical questions of the Middle Ages, Daniel Rynhold offers a concise introduction to topics such as God and creation, human freewill, biblical prophecy, the Commandments, the divine attributes and immortality.

Maimonides’ Guide of the Perplexed in Translation

Jewsh 2010-05-11 Moses Maimonides’ Guide of the Perplexed is the greatest philosophical text in the history of Jewish thought and a major work of the Middle Ages. For almost all of its history, however, the Guide has been read and commented upon in translation—first Hebrew, Latin, Spanish, French, English, and other modern languages—rather than in its original Judeo-Arabic. This volume is the first to tell the story of the translations and translations of Maimonides’ Guide and its impact on translation and philosophy from the Middle Ages to the present day. A collection of essays by scholars from a range of disciplines, the book unites in two parts. The first traces the history of the translations of the Guide, from medieval to modern renditions. The second survey its influence in translation on Latin scholars, early modern, and contemporary Anglo-American philosophy, as well as to its impact on translation in current scholarship. Intended primarily as a guidebook for the general reader, this book will be essential reading for philosophers, historians, and religious studies scholars alike.

Jewish Philosophy: General questions and considerations

Hajeri 2008 Volume One of Jewish Philosophy: Foundations and Extentions is divided thematically. “Foundations of Jewish Philosophy” analyses how Jewish philosophy is defined, the controversy, over faith and reason, and how for which reasons it predated the medieval, and Moses Maimonides, the modern tradition for Jewish philosophy. “Philosophy and Scripture” explores the relationship of the two major sources of religious thought, reason and revelation. “Non-Philosophical Sources and Their Implications” discusses the existence of the boundaries of philosophical thought.

Jewish Philosophy: A Guide for the Perplexed

Ronald H. Skolnik 1998 Discusses the philosophy and theology of Jewish philosophers from the earliest, medieval, and modern periods, including biographical sketches and summaries of their ideas.

The Jewish God Question

Andrew Pessin 2010-11-15 This book shares what a diverse array of Jewish thinkers have said about the interrelated questions of God, the Book, the Jewish people, and the Land of Israel. Accessible chapters present fascinating insights from ancient times to today, from Philo to Judith Plaskow. An intriguing and provocative look for modern readers with big questions.

Hermann Cohen: Samuel Moyn 2021 “Hermann Cohen (1842-1918) was among the most accomplished Jewish philosophers of modern times. This newly translated collection of his writings illuminates his achievements for student readers and rectifies lapses in his intellectual reception by your generation.”

Maimonides’ Guide of the Perplexed

Daniel Frank 2001-07 This is the first scholarly collection in English devoted to Maimonides’ Guide of the Perplexed.

Jewish Philosophy in the Middle Ages

T. M. Rudavsky 2010-04-28 T. M. Rudavsky presents a new account of the development of Jewish philosophy from the tenth century to Spinoza in the seventeenth, viewed as part of an ongoing dialogue with medieval Christian and Islamic thought. His aim is to provide a formal historical survey of major figures and schools within the medieval Jewish tradition, focusing on the tension between Judaism and rational thought. This is reflected in particular philosophical controversies across a wide range of issues in metaphysics, language, cosmology, and philosophical theology. The book illustrates our understanding of medieval Jewish thought by offering a much richer view of the Jewish philosophical tradition, informed by the considerable recent research that has been done in this area.

Levinas & Buber

Peter Abelson 2004 Emmanuel Levinas and Martin Buber—considered by many the most important Jewish philosophers since the 12th century sage Maimonides—knew each other as associates and friends. Yet although their dialogue was instructive at times, and demonstrated the interplay between them, Levinas had a particular relationship with Buber, in particular, their relationship just as often exhibited a failure to communicate. This volume of essays is intended to realize the important dialogue between the two. Thirteen essays by a wide range of scholars do not attempt to assimilate the two philosophers’ respective views to each other. Rather, these discussions provide an occasion to examine their genuine differences—differences that both Levinas and Buber agreed were required for genuine dialogue to begin.

A Field Guide to the Jewish People

Dave Barry 2009-08-24 From three award-winning and bestselling humor writers comes a hilarious guide to everything you need to know about Jewish history, holidays, and traditions. Why do remodels Jewish holidays keep crashing up unexpectedly? Why are you supposed to? (Who was the first Jewish comedian? What’s “Christian humor” and how are you ever heard of that phrase?) Who is the “Golem” and whom does he want to be with? These baffling questions and many more are answered by comedy legends Dave Barry, Adam Mansbach, and Alan Zweibel, authors of who are Jewish. In A Field Guide to the Jewish People the authors dissect every holiday, food, genre of music, and tradition, uncover a long and complicated history, and tackle the tough questions that have plagued Jews and non-Jews for centuries. Combining the sweetness of an spongy napsack with the wackiness of a matchball, this is the last book on Judaism you will ever need. So gather up your chosen ones, open a bottle of Manischewitz, and get ready to laugh as you finally begin to understand the inner workings of Judaism.

A Guide for the Perplexed: A Novel

Oscar De Muro 2013-08-09 While consulting at an Egyptian library, software geologist Josie Ardensted is kidnapped and her talent for preserving memories becomes her only means of escape as the power of her ingenuity is revealed, while at home, her parents wonder what has become of her.

New Directions in Jewish Philosophy

Aaron W. Hughes 2015 Breaking with strictly historical or textual perspectives, this book explores Jewish philosophy as philosophy. Often regarded as too technical for Judeo-studies and too religious for philosophy departments, Jewish philosophy has had an ambiguous position in the academy. These provocative essays propose new models for the study of Jewish philosophy that embrace wider intellectual areas—including linguistics, poetry, aesthetics, and visual culture—as a path toward understanding the particular philosophical concerns of Judaism. As they reveal classic Jewish texts, the essays articulate a new set of questions and demonstrate the vitality and originality of Jewish philosophy.

Spinoza and Medieval Jewish Philosophy

Steven Hudder 2016-12-05 The first of its kind, this essay collection offers an extensive examination of Spinoza’s relationship to medieval Jewish philosophy.
