build on Kee Tien’s personal history of sociocultural research in science education and as they do each chapter asks philosophical, sociological, and methodological questions that inform our understanding of the challenges associated with conducting research in experimental and virtual contexts.

History of Israelite religion

Geoff Fisher 1975

Changing Perspectives

The volume brings together forty years of agenda-setting scholarship in Israelite and Judaism history. The historical essays gathered here were among the first to raise serious questions about the "patriarchal age," the exodus from Egypt and the conquest of Canaan, and the temple of Solomon. The literary essays on the Pentateuch challenge both the classical Documentary Hypothesis and the more recent methodologists that support the notion of an extensive Deuteronomistic reduction of the Pentateuch. The final set of essays examines biblical notions of patriarchal religion, myths of human origin, and the legendary origins of Persia within a biblical comparative context.
