Family Business Studies Alfredo De Massis 2012-01-01 ÖThis book provides a thorough review and compendium of important family business research. It should be in the personal library of every family business scholar and graduate student involved in this vital field of study.Ö B Michael A. Hitt, Texas A&M University, US Ö DA systematic review of the field and an incredibly useful reference book for anyone involved in studying or teaching family business.Ö Ø Sara Carter OBE FRSE, Strathclyde Business School, UK ÖThis book offers a succinct but thorough overview of our understanding of significant issues in family business has evolved through rigorous research. This annotated bibliography of the 215 top-cited family business studies provides the empirical evidence and the basis for insightful comments from the authors on topics which will benefit from further scholarly debate and research. The authors are to be congratulated for making accessible those research contributions which have the potential to make a meaningful difference to the practice of family business.Ö Ø Jill Thomas, The University of Adelaide Business School, Australia ÔHighly recommended the annotated bibliography by De Massis, Sharma, Chua, and Chrisman to experienced scholars as well as to incoming researchers. The authors selected carefully (and in a transparent manner) relevant papers and summarized them in a way that provides a helpful basis for future research. Well done!Ö Ø Sabine R. Rau, WHU-OE Heinrich School of Management, Germany Ö welcome addition to the field of family business studies! Offers an update and thorough compendium of relevant research conducted within the last 15 years. A most useful reference for doctoral students, established scholars and thoughtful practitioners. Importantly, the first three chapters offer critical commentary and synthesis that go well beyond what one typically finds in an annotated bibliography. Overall, this book offers a solid foundation for moving the study of family business forward.Ö Ø Lloyd Streeter, University of Alberta, Canada ÔI had been asked to suggest the currently most-needed editorial endeavor for advancing family business studies, I would have answered with no hesitation: an up-to-date annotated bibliography. The fieldÕs growth over the past 15 years has been so intense, that even experts who devote most of their research efforts to family business do not to mention younger scholars approaching the field. Ö will significantly benefit from De Massis, Sharma, Chua, and ChrismanÕs indispensable work.Ö Ø D Carlo Salvato, Bocconi University, Italy and Associate Editor, Family Business Review This book catalogues the 215 most-cited empirical, theoretical, and practical articles on family business published in JJS journals since 1996. Researchers, students, and practicing managers will find it indispensable as a quick reference and guide to what we have learned about family firms. Annotations for the articles consist of: summaries of key findings, research questions, contributions, and research implications. They also include a detailed description of the methodologies, empirical data, definitions, and conceptual models used. In addition, the book features chapters that review the literature, discuss how family businesses have been defined, present recent trends in family business empirical research, and provide an agenda for future research. Scholars, researchers and PhD students in the fields of family business, entrepreneurship, organization theory, management, economics, finance, anthropology, sociology and business history will find this compendium insightful. The topics covered in the book will also prove to be essential to practitioners Ô both advisors and operators of family enterprises Ô as it will provide evidence-based knowledge on the issues and dilemmas faced by them in everyday life.

An Annotated Bibliography for Taiwan Film Studies–Jim Cheng 2016-04-19 Compiled by two skilled librarians and a Taiwanese film and culture specialist, this volume is the first multilingual and most comprehensive bibliography of Taiwanese film scholarship, designed to satisfy the broad interests of the modern researcher. The second book in a remarkable three-volume research project, An Annotated Bibliography for Taiwan Film Studies catalogues the published and unpublished monographs, essays, manuscripts, and conference proceedings of Taiwanese film scholars from the 1950s to 2013. Paired with An Annotated Bibliography for Chinese Film Studies (2004), which accounts for texts dating back to the 1920s, this series brings together like no other reference the disparate voices of Chinese film scholarship, charting its unique intellectual arc. Organized intuitively, the volume begins with reference materials (bibliographies, cinematographies, directories, indexes, dictionnaires, and handbooks) and then moves through film history (the colonial period, Taiwan dialect film, new Taiwan cinema, the 2/28 incident); film genres (animated, anticommunist, documentary, ethnographic, martial arts, teen); film reviews; film theory and technique; interdisciplinary studies (Taiwan and mainland China, Taiwan and Japan, and film and aboriginal peoples, film and literature, and film and nationality); biographical materials; film stories, screenplays, and scripts; film technology; and miscellaneous aspects of Taiwanese film scholarship (artifacts, acts of censorship, copyright law, distribution channels, film festivals, and industry practice). Works written in multiple languages include transliteration/romanized and original script entries, which follow universal AACR-2 and American cataloging standards, and the professional editors to aid in the use of sources.

A Blake Bibliography

A Blake Bibliography was first published in 1964. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. The aim of this book is to list every reference to William Blake published between 1757 and 1863 and every criticism and edition of his works from the beginning to the present. Partly because of the deluge of scholarship in the last forty years, it includes perhaps twice as many titles as Sir Geoffrey Keynes's great bibliography of 1921. An introductory essay on the history of Blake scholarship puts the most significant works into perspective, indicates the best work that has been done, and points to some neglected areas. In addition, all the most important references and many of the less significant ones are briefly annotated as to subject and value. Because many of the works are difficult to locate, specimen copies of all works published before 1831 have been traced to specific libraries. Each of Blake's manuscripts is also traced to its present owner. Two areas which have received relatively novel attention are early references to Blake (before 1863) and important sale and exhibition catalogues of his works. In both areas there are significant number of important entries which have not been noticed before by Blake scholars. The section on Blake's engravings for commercial works receives especially detailed treatment. A few of the titles listed here have not been described previously in connection with Blake.
