Sleep Physiology - Sleep Disorders and Sleep Deprivation
CHAPTER SUMMARY This chapter provides a brief overview of sleep physiology and how sleep patterns change over an individual’s life span. Humans spend about one-third of their lives asleep. There are two types of sleep, non-rapid eye movement sleep and rapid eye movement sleep. NREM sleep is divided into stages 1, 2, 3, and 4, representing a continuum of relative depth.

Extent and Health Consequences of Chronic Sleep Loss and
Sleep loss and sleep disorders are among the most common yet frequently overlooked and readily treatable health problems. It is estimated that 50 to 70 million Americans chronically suffer from a disorder of sleep and wakefulness, hindering daily functioning and adversely affecting health and longevity (NHLBI, 2003). Questions about sleep are seldom asked by physicians (Namen et al., 1999,...

All you really have to do is outlast your doctoral committee. The good news is that they are much older than you, so you can guess who will eventually expire first. The bad news is that they are more practiced at this game (after all, they persevered in the face of their doctoral committee, didn't they?).

MSAC - Medical Services Advisory Committee
The Medical Services Advisory Committee (MSAC) is an independent non-statutory committee established by the Australian Government Minister for Health in 1998.
