Austrian Studies Volume 1 Vienna 1900 From Altenberg To Wittgenstein

Vienna In Difficult Times: Hildegard (Hilda) Sophie 2011-12-30 Impending the impact of the ideological history of Austria across southwestern developments in literature and culture, this book is the first to consider the literary history of Austrian Jewish writing across the 20th century. It examines how the history of Vienna, the cradle of the city that stood at the center of Jewish life in the Austrian Empire and later the Austrian nation, assumed a special significance in the imaginations of Jewish writers of a new age and an era. The focus addresses the special role of cultural exchanges between Jewish authors and writers of Austria to revitalize a century-long pattern of living in tension with the city, experiencing simultaneously antagonism and acceptance, feeling "undomesticated brethren" (neither at home) in Vienna.

The Vienna Cafe and Fine-Silber Culture: Charlotte Asa 2011-03-05 The Vienna cafe was a key site of urban modernity around 1900. In the rapidly growing city it functioned as its soul, a place for literary activity, for those with Burkean ideas. This volume explores the nature and function of the coffeehouse, the place, cultural, and political world of fine-Silber culture. Just as the café served as a creative meeting point within the city, so this volume initiates conversations between different disciplines focusing on Vienna at the beginning of the twentieth century. Contributions are drawn from the fields of social and cultural history, literary studies, Jewish studies and art, and architectural and design history. A fresh perspective is also provided by a selection of comparative articles exploring coffeehouse culture elsewhere in Europe.

Rethinking Vienna 1900 Steffen Beller 2001-04-02 Fine-de-lent Vienna remains a central event in the birth of this century's modern culture. This text offers alternative ways of understanding the concept of "critical modernity" and the integration of previously neglected subjects.

The Dollfuss/Schuschnigg Era in Austria-Winschel Anton 2011-07-27 The years 1932-1938 of Chancellor Dollfuss and Schuschnigg's autocratic governments (1932-1938) have been denounced as "Austrianism" from the left, or defined as a Christian corporate-state ("Bruderstaat") from the right. During this period, Austria was in a desperate struggle to maintain its national independence with south-Germanic guidance and to ensure the future of the empire in a Europe dominated by Germany. Austria's enemies were Germany, the state" prevalent at the time.

Comprehending and Confronting Antisemitism: This volume celebrates the study of Austria in the twentieth century by historians, political scientists, and legal scholars, particularly those with a strong interest in European affairs. This addition to the Contemporary Austrian Studies series will be welcomed by political scientists, historians and legal scholars, particularly those with a strong interest in European affairs.

Neutrality in Austria: Ruth Winschel 2008-04-04 After Hitler's death, during a single major Cold War tensions in 1955, Austria managed to rid itself of a quadruple occupation regime and became a neutral state. As the Cold War continued, Austria's policy of neutrality helped make this small country into an important mediator of East-West differences, and neutrality became a crucial part of Austria's foreign policy.

Tropics of Vienna: Armin Lange 2019-11-05 This volume provides a compendium of the history of and discourse about antisemitism - both as a belief system of Jew-hatred, which are stored in the cultural and religious memories of the Western and Muslim worlds, and as a socially-at,node of a group of Austrian authors and intellectuals, the "Tropics of Vienna". This volume tells the story of the Vienna Coffeehouse, the Austrian Coffeehouse, and the Austrian Coffeehouse of the 19th century. It begins with a look at the history of the Vienna Coffeehouse, and ends with a look at the history of the Austrian Coffeehouse, and the Austrian Coffeehouse of the 19th century.

Cybernetics and systems 2006: "Austria" joined the European Union in 1995, with the overwhelming support of its citizenry. In 2007, Austria assumed its first presidency of the European Union. Its excellent performance in the Union's business enhanced its reputation. The sense that Austria was a role model collapsed overnight, its political and economic cohesion eroded. After the financial crisis of 2007-2008, the eurozone crisis of 2010-2012, and the refugee crisis of 2015, Austria's role model status was rehabilitated. After Stalin's death, during a respite in Cold War tensions in 1955, Austria managed to rid itself of a quadruple occupation regime and became a neutral state. As the Cold War continued, Austria's policy of neutrality helped make this small country into an important mediator of East-West differences, and neutrality became a crucial part of Austria's foreign policy.

This volume, the first of its kind in English, brings together scholars from different disciplines focusing on Vienna at the beginning of the twentieth century. Contributions are drawn from the fields of social and cultural history, literary studies, Jewish studies and art, and architectural and design history. A fresh perspective is also provided by a selection of comparative articles exploring coffeehouse culture elsewhere in Europe.

The first is to assess Austria's first few years in the European Union. The second is Austria's ongoing struggle with its past. Heinrich Neisser evaluates and assesses Austria's commitment to the European Union. Thomas Ansper offers a long-term perspective of regionalization and globalization trends in Austria's foreign affairs. Rolf Hunger examines Austria's role as a mediator of Austrian affairs. Johann Fügler critically examines the Austrian role of Austria's foreign policy. Michael Gehler critiques the EU sanctions and a new European identity. In the post-Cold War era, Austria's role model status was rehabilitated. The sense that Austria was a role model collapsed overnight, its political and economic cohesion eroded. Austria Foreign Policy in the Historical Context-Günter Bischof 2005, Austria celebrated the sixtieth anniversary of its liberation from the Nazi regime and the fiftieth anniversary of the State Treaty that ended the occupation and returned full sovereignty to the country. This volume of Contemporary Austria Studies covers foreign policy in the twentieth century. It offers an up-to-date status report of Austria's foreign policy to policymakers and diplomats. This book offers an analysis of the art and practice of Austrian diplomacy in historical perspective. Ambassador Wolfgang Petrich analyzes recent Balkan diplomacy as an EU minority in the Kosovo and Bosnia crises. Hansman Günter Rehderanalyzes the role of the United Nations. Günter Bischof, Joanna Granville, and Martin Keller provide historical case studies of post WWI and post World War II Austria diplomatic relations. Austria's dealings with the Hapsburg crisis of 1916, and its mediation between Kennedy and Khrushchev in the early 1960s. Political scientist Roman Kirt, Stefan Mayer, and Gunther Blater analyze small states foreign policy-making in a globalization world, Austria internal foreign policies and overall foreign policy initiatives abroad and Austria's role in A, in current European security situations. Michael Goldberg publishes post World War II Austria foreign policy regimes and provides a valuable summary of both the available archival and period diplomatic source collections. A "Vieuropeana Roundtable" is dedicated to the Austrian Occupation decade. Günter Bischof reports on the state of occupational history. Oliver Bellmer on the historical memory of the occupation. Michael Goldberg on the question of the German occupation, and Wolfgang Maier and Norman Nannies on Stalin's Cold War and Soviet policies towards Austria during those years. Review essays and book reviews on an art, anti-Semitism, the Hapsburg crises of 1916, among other topics, complete the volume.

Understanding Multiculturalism-Johannes Fichtinger 2014-03-10 Multiculturalism has long been talked to call for tolerance of cultural diversity, but today many observers are suppressing the concept to close scrutiny. After the political upheaval of 1989, the commitment to multiculturalism was perceived as a liberal mandate, but in the post-9/11 era, it is under attack for its relativist, particularist, and essentializing implications. The essays in this collection offer a nuanced analysis of the multifaceted cultural experience of Central Europe under the Habsburg monarchy and beyond. The authors examine how culturally coded social spaces can be described and understood historically without adopting categories formerly employed to justify the delimitation and separation of groups into nations, ethnicities, or homogeneous cultures. As we consider the issues of multiculturalism today, this volume offers new approaches to understanding multiculture in Central Europe freed of the effects of politically explained concepts of social spaces.

Beethoven's Conversation Books-Lukas van Beethoven 2010 A complete new edition of Beethoven's conversation books, now translated into English in their entirety for the first time, covering a period associated with the revolutionary style of what we call late Beethoven.

Science in the Metropolis-Mitchell C. Ash 2020-10-20 This book presents new research on spaces for science and processes of intervention and transformation. It provides new knowledge on the imperial metropolises of Vienna in the late nineteenth and early twentieth centuries. Chapter discussions highlight science policy, metropolitan natural history museums, large technical projects including the Ringmuseum and water pipelines from the Alps, urban geography, publics on polar exploration, exchanges of ethnographic objects, popular scientific societies and scientifically oriented adult education. The infrastructures and knowledge spaces described here were preconditions for the explosion of creativity known as "Vienna 1900".

Sacrifice and Rebirth-Mark Cornelius 2008-03-01 When Austria-Hungary broke up at the end of the First World War, the sacrifice of one million men who had died fighting for the Habsburg monarchy now seemed to be in vain. This book is the first in its kind to analyse how the Great War was interpreted, commemorated, and forgotten across all the ex-Habsburg territories. Each of the book's twelve chapters focuses on a separate region, studying how the transition to postwar politics was managed either by the state, by war veterans, or by national institutions. "This "splintered war memory," where some posed as victors and some as losers, much to explain the fractious character of interwar Central Europe.

The Red Army in Austria-Stefan Karner 2012-08-30 Based on interviews and a broad array of sources from Russian and Austrian archives, this collection provides a comprehensive analysis of the Soviet occupation of Austria from 1945 to 1953. The contributors cover a wide range of topics, including the Soviet Secret Service, the military commandantures, Soviet occupation policies and the withdrawal of troops in 1956, everyday life, the events of "Black September", resistance against Vice, resistance and leftist politics, and Austrian news centennial.

Territorial Revisionism and the Allies of Germany in the Second World War-Matthias Czitar' 2012-12-30 A few years after the Nazi came to power in Germany, an alliance of states and nationalistic movements formed, revolving around the German axis. That alliance, the states involved, and the merging process between their territorial states and those of Germany during the interwar period and World War II. In the case of this volume, the "territorial revisionist" came to agree on the same policies of military and political measures that attempted to change existing borders. Taking into account not only territorial relations but also the institutions of states and rationalizing ethnic ruling elites, this volume reconfigures the history of East-Central Europe during World War II. In so doing, it presents a clearer understanding of some of the central topics in the history of the war itself and offers a different perspective on standard German accounts of the period and Eastern European national histories.

Journeys into Madness-Germain Blackshaw 2012-06-01 At the turn of the century, Sigismund Freud's investigation of thesd remarkable patient in particular reveals a disease that was not yet medical understood: the disease that was to become known as "mental illness." The contributors reveal the different ways in which madness was experienced and represented in "Vienna 1900".

Diversity and Disson-Hanslovz Luttenberger 2013-03-20 Early modern Central Europe was the continent's most decentralized region politically and its most diverse ethically and culturally. With the onset of the Reformation, it also became Europe's most religiously divided territory and potentially its most explosive in terms of confessional conflict and war. Focusing on the Holy Roman Empire and the Polish-Lithuanian Commonwealth, this volume examines the tremendous challenge of managing confession diversity in Central Europe between the late Habsburg monarchy and beyond. The authors examine how culturally coded social spaces can be described and understood historically without adopting categories formerly employed to justify the delimitation and separation of groups into nations, ethnicities, or homogeneous cultures. As we consider the issues of multiculturalism today, this volume offers new approaches to understanding multiculture in Central Europe freed of the effects of politically explained concepts of social spaces.

Women in Austria-Günter Bischof 1998 The position of women in Austrian society, politics, and the economy follows the familiar trajectory of Western Europe. They were expected to accept their "proper place" as a male-patriarchal world. Achieving equality in all spheres of life was a long struggle that is still not completed in spite of many advances. The chapters in Women in Austria attest to the growing interest and new understanding of the history of women in Austria. The contributions cover a cross-section of new research in this field to an international audience. The volume includes both book reviews on Austrian business history, the Wallabre women, Jews in Austrian business history, and political policies in twentieth-century Austria. Women in Austria covers a plethora of significant social issues and will be essential to the work of Austria's women scholars, sociologists, historians, and Austrian news centennial.
