**The Oxford Handbook of European History, 1914-1945**-Nicholas Doumanis 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history. Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards, the era was dominated by political violence and chronic instability. Its symbols were Verdun, Guernica, and Auschwitz. By the end of this dark period, tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized. If the nineteenth century gave Europeans cause to regard the future with a sense of optimism, the early twentieth century had them anticipating the destruction of civilization. The fact that so many revolutions, regime changes, dictatorships, mass killings, and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis. The Oxford Handbook of European History, 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective. It demonstrates the degree to which national experiences were intertwined with those of other nations, and how each crisis was implicated in wider regional, continental, and global developments. Readers will find innovative and stimulating chapters on various political, social, and economic subjects by some of the leading scholars working on modern European history today.

**Modern Europe, 1789-Present**-Asa Briggs 2014-06-06 Now covering the whole of Europe from the French Revolution to the present day, this major new edition has been completely revised and brought up-to-date. The approach embraces the whole continent from both national and regional perspectives, and combines political survey with grass roots 'people' history. Bringing this history vividly to life, the authors use a very broad range of sources including memoirs, archives, letters, songs and newspapers. In particular, there is new treatment of the following themes: Religion and the modern Papacy Immigration in Europe and relationships between minority and majority groups UNESCO The European Bill of Rights The seeds of conflict in Bosnia and Croatia Europe's relations with the wider world, with particular attention to the Middle East and Japan.

**Germany and Propaganda in World War I**-David Welch 2014-08-01 Adolf Hitler, writing in Mein Kampf, was scathing in his condemnation of German propaganda in World War I, declaring that Germany failed to recognise that the mobilization of public opinion was a weapon of the first order. This, despite the fact that propaganda had been regarded by the German leadership, arguably for the first time, as an intrinsic part of the war effort. In this book, David Welch fully examines German society - politics, propaganda, public opinion and total war - in the Great War. Drawing on a wide range of sources - posters, newspapers, journals, film, Parliamentary debates, police and military reports and private papers - he argues that the moral collapse of Germany was due less to the failure to disseminate propaganda than to the inability of the military authorities and the Kaiser to reinforce this propaganda, and to acknowledge the importance of public opinion in forging an effective link between leadership and the people.

In a series of articles, six leading academics present some controversial conclusions: \* the east/west contrast in Europe today has more to do with responses to the French Revolution of 1789 than the Russian Revolution of 1917 \* the conservative Europe of 1814 was the product of the Romantic imagination, not a `Restoration' of the old regime Spanning political, social, economic and demographic facets of revolutions, this is an indispensable textbook for all students of the nineteenth century, and for all those interested in understanding the nature of Europe today.

**Mothers of the Nation**-Patrizia Albanese 2006 "Comparing nationalist and non-nationalist polities in order to establish how these governments differ in their treatment of women and families, Albanese concludes that the efforts of most ethno-nationalist regimes to return women to their 'natural' place in the home as housewives and mothers have been largely unsuccessful. Policies to this effect have provoked considerable opposition by women's groups and individual women, have often been reversed by subsequent governments, and have had little long-term demographic impact. Mothers of the Nation makes an important contribution to the literature on feminism, nationalism, and social and economic policy within a comparative political context."--Jacket.

**The Irish Women's Movement**-Linda Connolly 2001-11-12 This book provides a comprehensive analysis of the emergence, consolidation and development of the Irish women's movement, as a social movement, in the course of the twentieth century. It seeks to address several lacunae in Irish studies by illuminating the processes through which the movement and, in particular, networks of constituent organisations, came to fruition as agencies of social change. The central argument advanced is that when viewed historically, the Irish women's movement is characterised by its interconnectedness and continuity: the central tensions, themes and organising strategies of the movement connects diverse organisations and constituencies, over time and space. This book will be essential reading

for those interested in Irish studies, sociology, history, women's studies, and politics.

**Europe in 1848**-Dieter Dowe 2001-01-01 The events of 1989/90 in Europe demonstrated the renewed relevance of the mid-nineteenth century uprisings: both by showing, once again, how a revolutionary initiative could quickly spread through different European countries, but also by calling into question the nature of revolution and the criteria for a revolution's success and failure. To commemorate the 1848 revolution in a spirit of renewed critical inquiry, an international team of prominent historians have come together to produce what must be the most comprehensive work on this topic to date and to offer a synthesis that sums up the current state of scholarly research, emphasizing the many new interpretations that have developed over several decades.
